

Submitter: V M

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a member of the LGBTQ2IA+ community, as a proud family member to healthy trans people, and a friend to many trans people I urge you to prohibit conversion therapy. Its existence is yet another tool which enables violence against trans community, except it attacks in a space where trans people are simply looking for guidance and respect. Please end this archaic practice and replace it with humanity and decency.
