Measure: SB704

We are long overdue for a universal health plan. We've been a National leader in the world with the development of the first prioritized list of health services through Senate Bill 27..Now it's time for Oregon to develop and implement a comprehensive health plan for all Oregonians. We can do it if we have the support of our Governor and the legislature. Let's show the nation we have the will and will commit the resources to fulfill this achievable goal. Thank you.
