

Submitter: Julian Himenez

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I am in full support of Banning Conversion Therapy for all.

Life is full of experiences, and everyone should have the right to chose free from shame.

Parents, or guardians, religious practices should have NO say when it comes to gender expression or care. If you don't want it for yourself, then simply don't do it. The answer is direct, every person's experience varies, but you can't force your wants onto them.

Let people live joyously, fluidly. The human right to get the Gender Care you need is of the utmost importance. We don't force people to be LGBT, so why should conservatives force us to be straight?

Help save the immense amount of LGBT lives by passing this bill.

Thank you for your time.
