

Submitter: Anne-Marie Eklund

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB542

I am writing in support of SB 542 because it will reduce waste and save consumers money. Currently, the manufacturers of electronics are doing a disservice to the public by making it too difficult to repair their electronics. We need this bill passed in order to reform an unfair system that costs the taxpayer too much money and creates too much e-waste in the process. By passing this bill, consumers will have more opportunities to have their electronics repaired instead of being thrown away.
