"Oregon's Secretary of State is Oregon's chief elections officer, chief auditor, chief archivist, and oversees business and nonprofit filings. As an independent constitutional officer, the Secretary of State answers directly and solely to the people of Oregon"

I oppose this bill. Do the job of auditing. Audit the mismanagement of businesses who commit fraud, embezzel against the State. Creating another function diverts funds from hard working Oregonians to fund your staff. Keep the government out of health care! This bill leans toward an infringement of one's privacy. If an adult does not want to Register, it is their right. Why is the State seeking to pressure its citizens when seeking medical care? At their most vulnerable time, at a clinic, when ill? What about non legal individuals who seek medical care? How would the admit clerk know if they are legally entitled to Register to vote? Would they feel threatened and coerced to fill out a form out of fear they won't be medically treated? Is this how certain groups plan to take individual rights away? Thank you.
