

Submitter: Cyndi Ross

On Behalf Of: Myself

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2996

My Name is Cyndi Ross and I am writing in opposition to bill 2996. I have been in the Dental field since 2005 and I feel that by taking away testing for radiological proficiency will only endanger patients and other dental and healthcare workers. Dental workers exposing patients to radiation to get their radiographs need to be knowledgeable about the damage that can be caused to oneself and the patient! The machines have to be calibrated to the proper Ma and KVP to get a diagnostic image it is not one size fits all.

Those of us who have taken tests and continue to stay informed and up to date on new technologies take pride in what we do and by taking a way testing you are devaluing our profession.

I am urging you to vote know on this bill 2996.

Cyndi Ross
