

Submitter: Bethaney Clark

On Behalf Of: Oregonians

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a Professional Counselor Associate in the state of Oregon, I sometimes work with clients from the LGBTQ+ community in my private practice and see myself as an ally. Conversion therapy is known to be harmful in its practice which goes against all efforts of mental health professionals to do no harm. I am here to add my voice to the support of banning conversion therapy in our state.
