

Submitter: Steven Moore

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB543

As a concerned Oregon resident, and environmental advocate deeply concerned about the extreme proliferation of plastic waste globally AND locally, and about its harmful effects on all living systems, I strongly support this and all allied legislative measures designed to curb this problem. I'll add that as a consumer, I am making every reasonable effort to reduce my own consumption of single use plastic, including re-using products as often as possible, but real solutions must be achieved collectively. Thank you.
