

Submitter: Marqueus Rhodes

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3158

Good afternoon, my name is Marqueus Rhodes, I'm from Parkrose highschool first period activism class. We are currently learning about bad air pollution and climate change. I support the act of the legislative agenda HB3158 because I want the younger generation to have better air to breathe. I would like to help people better understand the way climate change really affects the world around us. From the trees to the air you breathe.

During the summer I like to go outside to enjoy nature and I love to skate. With the air being dirty it's hard to enjoy it all if I have to worry about my health. HB3158 would help businesses become cleaner by creating funding from tire tax, fuel tax*, leasing fees, and privilege tax on new truck purchases. It's good to give funding to have cleaner and better options.

Thank you for listening to me.
