

Submitter: Laurie Dougherty

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3022

Chair Marsh, Vice-Chairs Levy and Levy, and members of the House Committee on Climate, Energy and the Environment,

I am gratified to see that Climate has been given due recognition in the title and mission of this Committee. Motor vehicles are Oregon's greatest source of greenhouse gas emissions as well as a source of other pollution harmful to health and to the environment. The Department of Environmental Quality is charged with protecting Oregon's residents and environment from pollution and needs the authority to do so. The rulemaking process requires involvement of stakeholders and a opportunities for public input.

I urge you to oppose HB 3022.

Thank you for the opportunity to comment.
