

Submitter: Carly Henderson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a licensed professional counselor and an ally of the LGBTQIA+ community, I fully support this bill. "So called" conversion therapy is unethical, immoral, and deeply traumatizing to so many people. I urge the policy makers to use established scientific data and to consider the ethics rules enacted by the major psychological organizations rather than the anecdotal and religious based opposition.
