

Submitter: Loretta Johnson

On Behalf Of: County College Dental Radiology Instructor

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2996

Dear House Committee on Behavioral Health and Health Care,

It is important for Dental Radiology Instructors to provide a solid foundation in the radiation and technique basics that dental assistants need to know: As an instructor these are our goals for each student, along with high standards and best practices at the forefront. Nevertheless, this should not take the place of the Oregon Board of Dentistry, who is the governing body over clinicians practicing dentistry in Oregon from ensuring that all person's practicing are qualified.

It is unbelievable that the legislators would sponsor a Bill that would prohibit the OBD from doing their job and acting in the best interest of the Citizens of Oregon.

OPPOSE HB 2996
