

Submitter: Mindy Butkovich

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2996

A written exam helps students with the content of radiology in deeper ways. In conjunction with documentation showing a student has completed a radiology course approved by the Oregon Board of Dentistry, as well as a form signed by an Oregon licensed dentist or hygienist stating the student is proficient in taking radiographs.

This will help ensure that the student understands all safety factors for themselves and the patient.
