

Submitter: Caitlyn Mosher

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2996

Dear Committee on Behavioral Health and Health Care,
as a dental assisting student I feel the testing for certification to take dental x-rays is necessary. I feel as though wiping this testing takes away from education that we have participated in. My fear with this bill is someone who doesn't have the proper knowledge and skills taking jobs away from those who have done the work and education to be qualified.

Please oppose this bill.
