

Submitter: Bart Hawkins

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

Please support this bill to close the loop holes that insurance companies are using to avoid providing necessary services to children in need of hearing enhancement. As a father of a child with hearing loss, and an educator, I know the importance of hearing devices to children that are losing their hearing. Simply put, this bill closes loopholes that insurance companies are using to deny children appropriate services. Please don't allow corporations to continue to put profit ahead of the needs of children.
