

Submitter: Noreen Zupan

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB679

I am writing in support of SB 679 that will provide dollars to complete a hiking trail along the Oregon Coast. Oregonians have always been supportive of outdoor activities. To be able to hike the Oregon coast is a new adventure to explore by sections or the entire thru hike. The most important benefit of this bill is to make this hike safe by keeping hikers off the busy dangerous roads.

Besides benefiting Oregonian hikers it will bring tourist dollars to the state as hikers from around the world will come to do this special hiking tour. I personally travel to Europe each year to do thru hiking tours like this to enjoy hotels and restaurants along the way.

Thanks for your support
