Measure: HB3158

This is an appalling overreach from our legislators, particularly when many Oregon families are continuing to struggle from inflation, the COVID-19 pandemic, devastating wildfires in 2020, and more and more taxes. At its core, HB 3158 creates a suite of new taxes on construction, forestry, and agriculture to fund engine upgrades in Oregon's most populous metropolitan areas. It's fundamentally unfair to working families who are barely stungling to survive.
