Measure: HB2585

Every citizen must take responsibility for there own vote. That process starts when they register themselves. Encouraging participation in our elections is vital to healthy communities and gives a person a sense if connection. The less a person is aware the easier it is to take advantage of them..ie. STEAL THEIR VOTE!. Which is the beginnings of the break down process of active involved voters and healthy elections if a State wanted lethargic voters this is what they would do . Its dangerous, unhealthy, and must stops. Stop motor voter now!
