

Submitter: Shauna McKain-Storey

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB545

I support this bill because every time I shop for bulk foods or eat out, I wish I could use my own jars or other containers. The plastic bags provided are just so much additional unneeded trash, and the bags are flimsy and sometimes break - which causes a big mess. This is just common sense. If a store and their customers want to do this, is there really a good enough reason to prevent it?
