

Opposition of HB2107

OHA is a citizen Agency only. They are not part of a legislative body to enforce ANYTHING to the 'public' of Oregon and cannot be ASSIGNED to act as a legislative body regarding OREGON ELECTIONS. This goes far beyond OHA's scope. (ORS 431A.015)

The bill states, "the authority may not provide to the secretary any electronic records demonstrating that a person is not a citizen of the United States," WHICH IS ONE of the criteria for being an ELIGIBLE voter. Then the secretary is to obtain an electronic signature from the Department of Transportation if not provided by the authority. If (DMV) Transportation has the signature, that should mean they have already been registered under motor voter.

Is there no check for duplication?

Oregon is far behind on any transparency, effectiveness, and has completely lost its citizens trust in their (the peoples) elections and who represents them.

The second part of HB 2107 establishes a pilot program at Powder River Correctional Facility to require that each adult in custody be granted an updated state identification card and voter registration upon release. The Adult Custody Programs aimed towards rehabilitation include civic responsibility to re-enter society. "If" the convicted take their rehabilitation seriously, voter registration or re-registration should be presented as a PRIVILEGE to seek out their right to vote, not be force onto them. Once this system is set up, it makes it easier to then pass voting for prisoners in the name of "equity" for the convicted even though those convicted are not contributing to their society, but rather society paying for all their states convicted from the working citizens tax dollars.

This is an assigning of a legislative body AUTHORITY over VOTER REGISTRATION. Effect of amendment: defines qualified entity as Oregon health Authority, State Department of Fish and Wildlife, gun dealer, county sheriff, or Secretary of State (SOS).

How is this relative to the 'AGENCY' role as a health department in the workplace (OHA) or Fish and wildlife in licensing?

Opposition of HB2107

Voters are disenfranchised with this government's quest to increase their number of voters that seemingly are NOT informed. Knowledgeable voters want transparent, SECURE, and hand counted elections that guards against FRAUDULENT votes not a mass ploy to gain more voters.

It is government's job to protect our voting system and represent its employers, the people. OFFICIALS HOLD TRUST CONTRACTS WITH THE PEOPLE THAT EMPLOY THEM. I am against widening the overreach of such automatic registrations done by and through computers and data collection machines through agency overreach that are lent or ran by bad actors.

Government NEVER stops at "certain circumstances", it opens the box to everything while claiming safety and equity.

By giving the public the illusion of participation though feedback on topics such as these, such things are often voted in and disguised as what the people want, that simply is not the case here.

Oregonians disagree and have disagreed. Will representatives listen to their employers, their employer names are the taxpayers, to many to list but you know them by their hard-working fruits known as TAXES.

THIS IS UNCONSTITUTIONAL. Violates constitutional provisions; Exceeds the statutory authority of the OHA 'agency'.
