

Submitter: Applegate Association

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB679

I admit that I don't at this point know exactly what the funding in this bill goes toward. Nevertheless, I can say that the Coast Trail south of Gold Beach to the CA border is in terrible condition. It's long overdue for some maintenance, and better yet a redesign through the Samual Boardman section. I know because I walk those trails, and volunteer as Chairman of the Applegate Trails Association in another role. I support whatever investment it takes over time to make the Oregon Coast Trail a quality route.
