

Submitter: Justine Segura

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2410

The community of Ontario has been largely impacted by the Ontario Recreation Department in a positive way. Additional funding would further enable the ORD to support our children and community which would have a huge and lasting impact. I was raised in this community and now am raising my family here. I believe the ORD, its programs, and its recreational areas are vital to the continued growth of the Ontario community and will contribute to helping it thrive.
