

Submitter: Eduardo Melendrez

On Behalf Of: Ontario Resident

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure: HB2410

To whom it may concern: I have lived in the Eastern Oregon area for 20 years. I support House Bill 2410 and the lottery for the Ontario Aquatic Center. It is the heart of the community and can help many youth and families in our community. Once the pool closed down a piece of our community was lost. A place where families could come together and learn the vital lessons of swimming. We have many underserved youth who would benefit from the opening of the pool and the many other positive activities that our youth would benefit from. We need support and to feel included with all the great change that we are seeing in Oregon. Many of our youth are without hope and direction support for our Ontario Community Recreation Center can really give our youth hope and a better chance at succeeding in life. Please support HB 2410 to better all of Oregon. Thank you for your consideration and support for the Ontario Community Recreation Center in Ontario Oregon. Our community depends on your support and HB 2410.
