Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2763

HB 2763 HOUSE COMMITTEE ON EMERGENCY MANAGEMENT, GENERAL
GOVERNMENT, AND VETERANS

Here the legislature goes again, year after year, try to slip state banking into the mix of legislation. The Oregon Constitution clearly states that Oregon cannot be affiliated nor be a bank.

What about this statement does the legislature not understand. Moreover, to spend taxpayer dollars on the study of a forming a state bank would be to break this constitutional Oregon mandate.

To be lawful would have to be brought before the voters to obtain permission if you read the Oregon Constitution in plain writing. Apparently the House and the Senate need to read aloud and follow the laws before bringing an unlawful Bill to the floor for introduction and be assigned to committee for purview. Legislators don't assume that you can hoodwink the taxpayers, that legislators are the all knowing of what is best for this state, nothing of this caliber or consensus among citizens exists in Salem.
