

Submitter: Karri Garaventa

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB423

Just as my union colleagues have testified in recent days, I will support any bill that gives rank and file healthcare and related support and administrative workers a voice in directing policy of the institution that they support, that they truly keep running. Without workers feeding us in cafeterias, pushing brooms in hospital hallways, taking minutes in meetings, checking patient vitals, there IS no institution! We are long overdue to see employees who do the critical daily work of OHSU on its board of directors. I very much look forward to seeing this happen!
