

Submitter: Rodney Tomblison  
On Behalf Of: Self  
Committee: Senate Committee On Education  
Measure: SB551

It is not the business of school or Oregon health officials to know anything about private firearms storage or usage. That is a constitutional matter and is a privacy matter. Asking students about their parent's private matters should be strictly forbidden. This is a tyrannical overreach by public entities.  
Therefore, I oppose this legislation.
