

Submitter: Bill Harris

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2816

Chair Marsh and Vice Chairs Levy and Emerson Levy,
Present legislation with 2021 is set to be a big help to our state in reducing our share of GHG. Our Oregon share must involve as many as possible of us and our businesses. This bill HB 2816 will require large electricity users not covered by 2021 to eliminate fossil fuel generated electricity by 2040. This is both an issue of bringing a large amount of electricity under regulation and a matter of simple fairness.

Please pass this through your committee with a recommendation to pass.

All of us who want life to survive will be grateful.

Bill Harris

Portland, OR.
