

Submitter: Karen Perkins
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB426

Please pass SB 426, a critical step to protect our children on the school grounds. Follow the 2017 Healthy and Safe schools act. Pesticides must be reported just like other hazardous chemicals such as lead, asbestos and radon. Pesticide management issues must be overseen by key stakeholders - school districts need guidance from the Department of Education. The unfunded mandate requiring adherence to the Oregon School IPM law must end as it does not protect our children

Thank you, Karen Perkins
