

Submitter: Kurt Williams

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: SB851

What are we doing? What are we doing?

WHAT ARE WE DOING???

This is what our legislature spends it's time and money doing? Let me save you the trouble and tell you what we'll learn: radical leftists and perpetual victims will tell you the capitalist model is terrible and workers are treated poorly. Other victim classes will also claim employers are abusing and horrible. The problem is this: you're spending money in an attempt to study something you have no ability to measure. You can't make any conclusions based off of any data you receive because it's all based on qualitative, anecdotal statements of feelings that are extremely biased. Could it be true? Sure. Could it be false? Yep. Could it be from a mentally ill person whose perceptions of situations are distorted? Absolutely. So there's no way to judge the veracity. And as we know, emotions and feelings are not always true or accurate.

The study, and bill, is, by nature, useless.
