

Submitter: Alan Holland
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3224

From
Alan Holland
Resident Salem

I urge full support and appropriate funding for HB3224 to recreate Salem's streetcar system. This will help attract shoppers and increase economic vitality to the downtown of Oregon's Capitol city.

A wise and prudent investment, this will surely be an attractive local transportation option that will pay dividends in jobs and enhance the retail economic environment. Advertising on streetcars, increased foot traffic near stores, convenience, and more will be some of the benefits. This will be a GEM, please support and fund this valuable project. Thank you.
