

Submitter: Kevin Goodrich  
On Behalf Of: Oregonian Families  
Committee: House Committee On Rules  
Measure: HJR20

If minors were mentally competent to enter into legal contracts, this legislative joke (aka House Joint Res. 20) might be taken seriously - but they're not old enough, so it won't be taken seriously...and those who vote for this bill will be unelected by those who see through this insanity. Where are Salem's ideas to make Oregon \_better\_, not to destroy our state from within?! Here's an idea: How about ending this madness immediately and repairing / restoring Oregon's renewable natural-resource-based economy NOW by voting 'No' on HJR 20 so Oregonian families can have a realistic chance at achieving America's standards of mental health?!
