

Submitter: Patricia Hine

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

Please vote NO on HB 2215. Oregonians decided on this decades ago, and with good reason. We have not resolved the issue of nuclear waste. For that reason alone, the law should remain on the books. There are plenty of other reasons to vote no too: we can reach our energy needs without nuclear power. It's a fevered dream of operators who stand to get a lot of federal funds, pushed by the nuke power lobbyists and their minions. It's never penciled out, and it never will. Time to start throwing this kind of money to renewable energy incentives, and along with fossil fuels, make nuke power a distant memory / mistake. Thank you.
