

Submitter: Terrie Larson

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB90

I have lived in Oregon my whole life (60yrs) everyone a bill like this one comes up and or passes I see lives ruined, communities devastated and ways of life disappear. TOO OFTEN I HAVE 1ST HAND SEEN SUSTAINABLE WAYS OF LIFE GONE. In its place; ghost towns, where there were once thriving communities, laughter and school children ~ our next generation. Don't let people who know nothing of this way of life tell us what is best for us. NO ON SB90
