

Submitter: Barbara Lozar

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB90

Rural Oregon is nothing but ghost towns left behind from Logging and fishing. There is no money to tax. Oregon's natural product was timber and the government closed that

down years ago. I was born and raised in Oregon. In high school I took forestry classes and was proud of our forest! They were maintained like a beautiful garden.

Now they

are burnt out weed batches of dead decade trees. Please NO more taxes! There is nothing to tax. You have killed all the jobs in Oregon. Please let the older people who were born

and raised in rural Oregon live their lives out in peace away from the reaches of your policies.

Sincerely,

Barbara Lozar
