

Submitter: Jamie Collier

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB90

I believe this proposal will only serve to further shut down the timber industry in rural Oregon that was once a major part of our economy. I have first hand knowledge that loggers are far more concerned about the health and care for our forests than any self proclaimed environmentalis. This industry has already been impacted enough by poor government regulations these polices tend to have very poor impacts on our forests in addition to destroying income for rural economies.
