RE: Letter of Support – Extending Sunsets (Senate Bills 134, HB 2060, and HB 2199)

Dear Senate Committee on Finance and Revenue,

Serán Bioscience strongly supports the concept of extending the sunset as presently supported in SB 134, HB 2060, and HB 2199, which collectively extend the sunsets for the Oregon Enterprise Zone program. This program is one of the most effective economic development incentives available for the promotion of traded-sector business growth in Oregon.

Our mission at Serán Bioscience, LLC is to provide optimized drug development and manufacturing services for our clients. Serán, as a beneficiary of the Enterprise Zone program, hopes to preserve this valuable incentive that has helped create well-paying jobs in Central Oregon.

Sincerely,

DocuSigned by:
