

Submitter: Daniel Robertson

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB90

Senate Committee On Natural Resources

I am a graduate professional forester from Oregon State University managing thousands of acres on the South Coast of Oregon since 1970. Please leave the current system with the county timber revenues as it is. Leave the management of rural timber resources to the trained professionals that have been producing healthy productive forests for timber, water and wildlife for the last 50 years, successfully.

Dan Robertson, Professional Forester
