

I SUPPORT on [HB 2215]...Get rid of the accursed, solar farms and windmills(bird choppers).

From the "Summary of [HB 2215]: Removes requirement that adequate repository for terminal disposition of high-level radioactive waste be licensed as precondition for issuance of site certificate for nuclear-fueled thermal power plant. Removes requirement that proposed site certificate for nuclear-fueled thermal power plant be submitted to electors of this state for approval or rejection. **Refers Act to people for their approval or rejection at next regular general election."**

Hydrogen power and Fusion power will not available for several years.

Nuclear power can and will provide many benefits.

I appreciate the sponsor of [HB 2215] had the common sense to add the phrase below,

" Refers Act to people for their approval or rejection at next regular general election."

If people really want to complain about a potential nightmare...go check-out the massive fuel depot near Portland.

David S. Wall

Mr. Oregon Concur..Will [HB 2215] make me "glow in the dark?"
