

Submitter: Chad Kernutt
On Behalf Of: Tax Paying American Citizens
Committee: Senate Committee On Human Services
Measure: SB610

Dear Lawmakers,

I urge you to vote NO on SB-610 opening up American Citizen tax dollars to people who are not Americans and have flouted the laws of our country. We as a society should not encourage bad behavior and breaking of the laws let alone reward it like we've already done with giving drivers licenses to illegal immigrants. It's bad enough that illegal immigrants broke our laws in sneaking into our country and making the tax payers have to foot the bill for them already in a myriad of ways (their kids flooding our classrooms bloating the sizes and taking resources and focused time with American children, using our hospital emergency rooms for all their health care needs and flooding critical health systems and making 4-8 wait times in the ER for American citizens) so why would we then go further in making their illegal stays comfortable and beneficial for them by providing them with up to \$1,000 dollars a month when that food/money should be going to starving American families and children. I say enough is enough and no more pandering to law breakers and those who cheat their way to get what they want already showing that it's nothing for them to break the laws of this country. If you are going to break our laws to get here cheating others who are waiting in line doing it the right way than you should not expect a welcome mat and being able to be indigent and dependent on the citizens of that country and be able to get a free ride and be a free loader with your permanent stay. No these people who broke our laws should only get one thing purchased for them and that's a ticket back to their country of origin or nearest country to their place of origin if they are an asylum seeker with a valid argument/reason. Please vote NO on SB-610 and do no waste our precious resources and tax dollars on those who are criminals and not even American citizens. Thank you.
