

Submitter: Linden J

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2816

Data centers are projected to use 58% more energy by 2030 and 128% by 2040 according to the Northwest Power and Conservation Council. A few companies should not be allowed to avoid the requirements of HB2021 with on-site fossil fuel use. I support HB 2816 because it ensures all companies comply with the statewide goals for clean energy generation.

Oregon's precious resources are irreplaceable.
