Measure: SB585

SB 585 SENATE COMMITTEE ON RULES

Oppose the rule of changing the 180 day rule to allow the rule to be changed to allow a person to become a precinct committee person.

Also oppose the majority political party voting standards, request that the legislature incorporate to make available to all Oregonians a free and fair election. All voters should be entitled to vote for any candidate within their voting district in any primary or general election. The parceling out of parties is anarchic, citizens deserve the best choice of candidate of their choosing. Currently Oregonians are excluded or restrained from voting for any person seeking office. Currently if not registered as a voter for a major party the primary is a boondoggle of keeping the status quo of Republican/Democrat scheme to lock down politics in favor of Democrat/Republican candidates.

Aware that a voter may vote bubble, blank fill in of name of choice, but do all Oregon voters know this is an option as a general rule of any election?
