

Submitter: Diane Dulken

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2601

I am a public employee and I support this bill. A well diversified portfolio does not need fossil fuels in it. There are other ways of achieving returns. And even if returns would be lower, it doesn't make sense to make money on one hand and then spend it on climate disaster recovery on the other. We are all living in a time that requires us to change direction for our individual and collective good. Thank you.
