

Submitter: NW Coast Range

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2998

HB 2998 HOUSE COMMITTEE ON ARGRICULTURE, LAND USE, NATURAL
RESOURCES, AND WATER

As much as the Oregon Legislature tried HB 2998 is not based by tried and accomplished, believe legislature should go back to the drawing board on restoring soil and soil loss. Moreover, definitely should assign to the task of soil regeneration to the Department of Agriculture. To also work diligently to not regulate small businesses out of generational farming and ranching in rural Oregon. Do not mandate, but inform, encourage, and provide incentives if necessary. No Oregonian likes the government mandating their land-hold that they have worked, sweated, and sacrificed to improve and provide a lifetime home, possibility for generations.

Regenerating and microbiology of soil improvement:
