

Submitter: Shauna McKain-Storey

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2816

I'm writing again to support this bill because Oregon can't wait to start reducing greenhouse gas emissions that are worsening the climate change that is causing wildfires, drought and extreme weather in our state and around the world to become more frequent and more intense. Holding industries to higher standards is a good step, because it shouldn't be only the responsibility of everyday citizens/consumers - like me and my friends and neighbors - to worry about the consequences of what they buy, how they travel and what energy options they choose, etc.
