Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3163

Our state is suffering from an increasingly severe drought and conflicts over water usage are intensifying between farmers, industries, tribal needs and residents. So water planning and those charged with this responsibility must be made a high priority, and given sufficient support and funds to do this critical job well. Sufficient water supplies are essential to our lives and livelihoods - Oregon lawmakers need to start taking water issues in our state seriously!
