

Submitter: Austin Kathol
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB414

Dear Members of the Senate Committee on Education,

I am writing to express my support for the bill covering improved indoor air quality in Oregon schools. Poor air quality in schools can have a negative impact on the health and well-being of students, teachers, and staff. It can also lead to decreased academic performance and increased absenteeism.

I believe that Oregon schools should be held to the highest standards when it comes to indoor air quality. This includes ensuring that all schools are equipped with proper ventilation systems, that all classrooms are regularly tested for air quality, and that any issues are addressed promptly.

I urge you to take action to ensure that all Oregon schools have safe and healthy indoor air quality on behalf of my children and all of the children in Oregon, especially those who are most at risk. Thank you for your time and consideration.

Sincerely,
Austin Kathol
