Committee: Senate Committee On Judiciary

Measure: SB422

Hello; I urge you please to finally pass this bill. I ride and have been since the early 70's consequently my old bike's are air cooled and find myself having to pull over in traffic, not always in a safe spot and wait for traffic to ease up, I sometimes spend three to four hours committing just on the way home. Lane sharing is a need and very safe, don't let some of the idiots abusing the privilege ruin it for the rest of us safe and experienced riders please.
