On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB3235

Template testimony:

To the House Committee on Early Childhood and Human Services,

I am writing to express my support for HB 3235. I want to let you know what an additional \$1,200 per child would mean for my family.

The extra money would be a life saver for our family!!! We are a family that unfortunately is right at the threshold to not be able to get assistance with food for a family of 6 and a monthly income of \$4,000 before taxes. This extra money would give hope..... wondering how you are going to feed your kids everyday breaks your heart and takes a piece of your soul!!

I support the Oregon Kids' Credit so that my family can get the support it needs.

Sincerely,

Sabrina Ross
