Government, and Veterans

Measure: HB2601

HB 2601

HOUSE COMMITTEE ON EMERGENCY MANAGEMENT, GENERAL
GOVERNMENT, AND VETERANS

The Oregon Treasury should invest in any industry that gleans the best return, do not bankrupt the programs that provide programs such as PERS over government greenwashing agenda, devised to manipulate the taxpayers into believing tomorrow America will become fossil free. No matter what politicians believe the energy from fossil fuels is not going away anytime soon due to government continued exploration and extraction for energy to fulfill the needs of the American people.
