

Submitter: Rodney John Tomblason
On Behalf Of: Self
Committee: Senate Committee On Natural Resources
Measure: SB795

Management for the greatest possible value MUST include logging at some level. However, I do not trust the state to be capable of this because their personnel are only politically motivated. They don't care if logging companies go out of business. State paid personnel have their cake, and care not for private interests, the people who really make a state work! Therefore, there should, there must be private oversight of what the state forest management is doing. Can this proposal be amended as such?
